WELLNESS COMMUNITY

A VILLA DOES NOT CHANGE YOUR LIFE, A WELLNESS COMMUNITY DOES

Sometimes we are so absorbed in life that we forget to stop and meditate on our next steps.

It is time to reflect and remember that we must slow down to contemplate and enjoy nature.

To become aware that life is here and now, and that everything is as we allow it to be.

At Cardinal, your life is what you always wanted it to be.

THE 6 DIMENSIONS OF WELLNESS LIVING

Cardinal was born as part of a global Wellness Living movement. It was created to change how people live in Tulum and to redefine luxury through a sustainable, human, and mindful lens.

It comes from the need for a new residential model, where well-being, hospitality, sustainability, and community all live together in balance.

Community

03

Sustainability

02

Wellness Living

04

Hospitality

Cardinal redefines residential luxury in Tulum by creating a wellness ecosystem, where community, wellbeing, hospitality, and sustainability are naturally intertwined in a single life experience.

COMMUNITY

Inspired by the principles of Wellness Living, Cardinal integrates local identity, nature, and community activation.

At Cardinal, we believe that wellbeing is built in community. Environments where trust, closeness, and a sense of belonging exist have a direct impact on emotional health, quality of life, and the way you live day to day.

Cardinal creates a natural balance between privacy and connection, allowing spontaneous encounters, shared experiences, and genuine bonds between people who share similar values.

Through experiences, rituals, and programs that connect residents and visitors with the environment and the culture of Tulum, the community remains alive, participatory, and in constant balance.

MORE THAN A HOUSE, A COMMUNITY

WELLNESS LIVING

At Cardinal, wellness begins from within.

It is the serene decision to listen to yourself, nourish mind, body, and spirit, and honor that deep calling to live in harmony with the jungle and the sea. Here, wellness is your way of life.

Wellness Living is the living heart of your community: a lifestyle platform that integrates spaces, services, and programs to care for your mind, body, and spirit in harmony with the jungle.

Cardinal integrates a Wellness Hub as the core of the experience, hot-cold contrast spa (ice plunge, sauna, steam, and hydrotherapy), massages and body therapies, strength and mobility gym, guided yoga and meditation, breathwork, sound baths, sound healing and stretching, healthy cooking workshops, kids lab, recovery and sleep sessions, as well as wellness coaching.

Under the Wellness Living standard, everything flows with calm and precision: curated calendar, certified coaches, impeccable maintenance, and close attention, to arrive, exhale, and feel in balance with your new life.

A LIFESTYLE DESIGNED TO LIVE UP TO MY DREAMS

Being part of Cardinal means aligning your heritage with your values: caring for the environment, generating a positive impact, and being part of a community that understands that investing well also means doing it with conscience.
